About Us

Scope Creative is a specialized company in the design and execution of exhibition stands, events, visual identity solutions, and advertising spaces. We bring together creative thinking, practical experience, and engineering precision to deliver well-executed spaces that reflect our clients' brands and meet the demands of each project.

Established in 2020, Scope Creative has delivered a wide range of projects across the Kingdom of Saudi Arabia, with a strong presence in Riyadh, Jeddah, and Diriyah. Over the years, we have worked across different sectors and event environments, developing the experience and capabilities needed to manage projects from concept and design through to production and installation.

We believe that every space is an opportunity to represent a brand in a meaningful way. That is why we approach every project with attention to detail, a clear understanding of our clients' objectives, and a commitment to quality at every stage of execution.

Our Vision

To become the leading choice for exhibition stand design and creative space solutions across the region by delivering innovative solutions that seamlessly integrate design, quality, and modern technologies.

Our Mission

To transform our clients' ideas into tangible environments that reflect their brand identity through professional design and execution solutions that ensure quality, efficiency, and a lasting impact.

Our Values

Creativity | Precision | Quality | Commitment | Trust

Tawuniya Exhibition Stand

We have successfully executed numerous projects for Tawuniya since 2023.

We managed the design and execution of Tawuniya's exhibition stand at **(Riyadh Motor Show 2023 - Saudi Tourism Forum 2025 - Riyadh Marathon 2025 - GTR KSA 2025)**, overseeing every stage of the project from initial concept development and design to fabrication, installation, and screen and light ingintegration.

Throughout the events, our team provided on-site technical support to ensure smooth operation. Following the exhibition, we handled the dismantling of the stand and prepared its components for transportation, delivering a seamless end-to-end service from concept to completion.
